

QUALITY POLICY

AbraxSys Corporation designs and manufactures state-of-the-art rugged LCD monitors, sunlight readable systems, harsh duty touch screen systems, and industrial grade panel computers. The company strives to exceed the expectations of our worldwide customers through the following:

- Gaining a comprehensive understanding of our customer's requirements and designing to achieve each of those requirements
- Measuring against process targets at specific phases of design and production
- Monitoring internal processes to promote continual improvement
- Selecting and evaluating vendors based on quality, competitiveness, and delivery performance
- Reducing waste and rejections
- Training and motivating all employees
- Adopting the latest techniques in terms of design, production, and consistency
- Ensuring reliable and on-time deliveries to customers
- Evaluating customer satisfaction and addressing concerns.

The company's ultimate goal is to provide the customer with a high-quality experience resulting in the delivery of reliable products and solutions.
